

DISCLAIMER:

All of the information provided on the Kentucky Osteoporosis Prevention and Education Program Tool Kit CD is intended solely for general information and should NOT be relied upon for any particular diagnosis, treatment, or care. The information contained on this CD and handouts is not a substitute for medical advice or treatment. The Kentucky Department for Public Health strongly encourages patients and their families to consult with qualified medical professionals for treatment and related advice on individual cases.

Decisions relating to the prevention, detection and treatment of osteoporosis should be made only after discussing the risks and benefits with your health care provider, taking into account your personal medical history, your current situation and your future health risks and concerns. The Kentucky Department for Public Health and collaborative organizations do not advocate the general use of therapies not approved by the Food and Drug Administration for the prevention and treatment of osteoporosis.

The Kentucky Department for Public Health specifically disclaims any and all liability, whether based in contract, tort, and strict liability or otherwise, for any direct, indirect, incidental, consequential, or special damages arising out of or in any way connected with access to or use of the information on the CD for educational purposes. This disclaimer includes the possibility that even if Kentucky Department for Public Health has been advised of the possibility of such damages; including but not limited to reliance by any party on any content obtained through use of the website, or that arises in connection with mistakes or omissions in, or delays in transmission of, information to or from the user, interruptions in telecommunications connections to the website or viruses, whether caused in whole or in part by negligence.
